Clear the air, Inc. announces the addition of a new Honeywell compatible replacement product to their web site.

Orland Park, IL. March 24, 2010 – Danielle Zidek, today announced the the addition of premium Honeywell compatible replacement filters to their product line. “We are dedicated to serving the needs of anyone who wishes to breathe cleaner indoor air. We provide a wide variety of high quality products and we are proud to include the Honeywell replacement line.” said Danielle Zidek, President of Clear the Air, Inc.

Clear the air will be featuring the **Honeywell** compatible replacement filters in three premium grades; Merv 8, Merv 11, and Merv 13. These high quality **furnace filters** will work to effectively remove allergens and fine airborne particles such as dust, dust mites, bacteria pollen, mold spores, pet dander, smoke, gases and odors. Our advanced pleat technology provides less air flow resistance, with higher efficiency.

Clear the air, Inc. supplies premium quality home air filters to health conscious consumers. Our ultimate goal is providing the healthiest living environment possible for anyone who wishes to breathe cleaner indoor air. Visit us at www.cleartheairinc.com. # # #
